

AIPIA Conference 2018 SPEAKER BIO/INFORMATION

Developing Trends in Active & Intelligent Packaging for a Smart Digital World, Andrew Manly

By Andrew Manly, Communications Director, AIPIA Secretariat

Andrew Manly joined the packaging sector more than 40 years ago and has held several senior positions in the industry,

including as the founding CEO of the UK's Processing and Packaging Machinery Association (PPMA). Currently he is the

Communications Director and a co-founder of the Active & Intelligent Packaging Industry Association (AIPIA).

An experienced journalist and commentator on the packaging sector, he has written extensively on many packaging matters and visited more than 70 countries lecturing on innovations in the industry. He has been involved with the Asian packaging market for over 20 years and brings a perspective from that two decades of involvement, to offer insights on the next developments in the region.

Smart Materials for Flexible Printed Electronics in Active & Intelligent Packaging

By: Bawa Singh, PhD.

Dr. Bawa Singh is the Executive Vice-President for Technology & Corporate Development Group at Alpha Assembly Solutions; a global leader in Electronic and Semiconductor assembly materials.

He is responsible for spearheading Alpha in areas of emerging technologies and building new businesses around them.

Dr. Singh holds a PhD in Plasma Physics from the University of Aston in Birmingham, UK and specializes in Nanotechnology based materials (like nanometals) and Graphene. He has held technology leadership roles in the areas of electronic, semiconductor and optical materials and related technologies, last one being as the CTO (Chief Technology Officer) at Alpha Assembly Solutions.

Prior to joining Alpha, Dr. Singh was heading the Advanced Materials and Applications Laboratory at Sarnoff Research Center, USA. He has co-authored a 'Handbook of Vacuum Technology' and has been a long standing Contributing Editor and Member of the Advisory Board, Vacuum and Thin Film Journal.

By: Anubhav Rustogi

Mr. Anubhav Rustogi is the Manager for Markets, Business Intelligence & Analytics at Alpha Assembly Solutions; a global leader in Electronic and Semiconductor assembly materials.

He is part of the Technology & Corporate development group, and is responsible for: identifying emerging technologies & trends for new business development, assessing the techno-commercial feasibility of business opportunities identified and ensuring strategic fit of programs so defined.

He also manages customer engagements, for all new business development opportunities.

Anubhav holds a bachelor's degree in Mechanical Engineering and an MBA in Finance & Marketing. He is a trained Six Sigma Black Belt, and Project Management certified from both PMI, USA and OGC, UK.

Anubhav served as the global R&D program manager at Alpha, prior to moving into this current role. In the past, he has managed and spearheaded project management function at leading global pharmaceutical & biologics companies, successfully delivering projects across the entire drug development value chain.

Securing Supply Chains through Smart Packaging & Cloud-Based Solutions
