

### ProPak Asia: Impactful Meaning for Sustainable Future

Running an exhibition "ProPak Asia" gives us lots of opportunities to improve our impacts environmentally, socially and economically in our region. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

We do this not only because our partners & attendees tell us that they care that our events are run in a responsible manner, but because it is the right thing to do for our customers, colleagues, and the communities we serve.

Do you know?

## Sustainable Event

ProPak Asia is considered a **sustainable event**, according to Thailand Sustainable Event Management Standard (TSEMS).

Inspiring  
Sustainable  
Development

Running an  
Environmentally  
Responsible  
Event

Running a  
Socially  
Responsible  
Event

As part of our commitment to reducing our event carbon impact, and our journey to Net Zero we are excited to announce that we have purchased **renewable electricity for over 90%** of our event.

## Sustainability Partners: Connect the Communities

**Company Name:** Bangkok Paper Business Co., Ltd.

**Booth No.:** FY449

**Product Name:** Bangkok Paper Business' sustainability initiatives encompass comprehensive actions across three key areas:

**Products:** We concern end-of-life's products and ensure all fiber-paper products are sourced from transparent, legally managed forests and certified by the global standard FSC™. Our commitment to recyclability and non-toxicity safeguards health, and environment.

**Service Optimization:** Customized paper sizing minimizes wastes and costs for our customers, while our extended supplier responsibility program to collect back used of printing advertising materials to recycle process.

**Operational Excellence:** Our company culture fosters environmental consciousness among employees. Initiatives include sharing excess used bags, educating on garbage separation, managing paper wastes within factory.
