

ProPak Asia: Impactful Meaning for Sustainable Future

Running an exhibition "ProPak Asia" gives us lots of opportunities to improve our impacts environmentally, socially and economically in our region. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

We do this not only because our partners & attendees tell us that they care that our events are run in a responsible manner, but because it is the right thing to do for our customers, colleagues, and the communities we serve.

ProPak Asia is considered a **sustainable event**, according to Thailand Sustainable Event Management Standard (TSEMS).

Inspiring Sustainable Development

Running an Environmentally Responsible Event

Running a Socially Responsible Event

As part of our commitment to reducing our event carbon impact, and our journey to Net Zero we are excited to announce that we have purchased **renewable electricity for over 90%** of our event.

Sustainability Partners: Connect the Communities

Company Name: Better Pack Co.,Ltd.

Booth No.: AR06

Product Name:

-Promoting the use of eco-friendly packaging materials: We can advise customers on efficient and responsible packaging solutions, such as those using recycled, bio-based, or compostable materials.

-Developing machines for optimized material usage: We can offer machines with features that minimize material waste during the packaging process, like precise film cutting or tight container forming.

-Encouraging energy efficiency: We can design and manufacture machines that use less energy during operation, contributing to a smaller carbon footprint.

By focusing on these aspects, we aim to empower our customers to make more sustainable choices and contribute to a circular economy.
