

ProPak Asia: Impactful Meaning for Sustainable Future

Running an exhibition "ProPak Asia" gives us lots of opportunities to improve our impacts environmentally, socially and economically in our region. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

We do this not only because our partners & attendees tell us that they care that our events are run in a responsible manner, but because it is the right thing to do for our customers, colleagues, and the communities we serve.

ProPak Asia is considered a **sustainable event**, according to Thailand Sustainable Event Management Standard (TSEMS).

Inspiring Sustainable Development

Running an Environmentally Responsible Event

Running a Socially Responsible Event

As part of our commitment to reducing our event carbon impact, and our journey to Net Zero we are excited to announce that we have purchased **renewable electricity for over 90%** of our event.

Sustainability Partners: Connect the Communities

Company Name: MILLIKEN HOLDINGS (HONG KONG) CO., LTD

Booth No.: FY05

Product Name: Milliken's additives and modifiers are widely used across markets and applications including food storage, home storage, and industrial uses. Our additives enhance performance and sustainability leading to better products for our customers.

While working to advance sustainability in plastics, Milliken helps customers to lower greenhouse gas emissions and their overall carbon footprint, reduce dependence on single-use plastics to create more durable, eco-friendly packaging, enhance plastic recycling and reduce overall waste.
