

ProPak Asia: Impactful Meaning for Sustainable Future

Running an exhibition "ProPak Asia" gives us lots of opportunities to improve our impacts environmentally, socially and economically in our region. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

We do this not only because our partners & attendees tell us that they care that our events are run in a responsible manner, but because it is the right thing to do for our customers, colleagues, and the communities we serve.

ProPak Asia is considered a **sustainable event**, according to Thailand Sustainable Event Management Standard (TSEMS).

Inspiring Sustainable Development

Running an Environmentally Responsible Event

Running a Socially Responsible Event

As part of our commitment to reducing our event carbon impact, and our journey to Net Zero we are excited to announce that we have purchased **renewable electricity for over 90%** of our event.

Sustainability Partners: Connect the Communities

Company Name: TBM Co., Ltd.

Booth No.: B59

Product Name: We, TBM, are a startup that aims to achieve a decarbonized and recycling-oriented society through its environmentally friendly materials and resource recycling business, with sustainability at the core of management.

LIMEX is our limestone-based material that replaces plastic and paper, and CirculeX is our recycled material that promotes resource recycling, both of which were created using Japanese technology. We are also committed to use electricity that is virtually 100% renewable and has zero CO₂ emissions at our LIMEX and CirculeX manufacturing plants.
