

ProPak Asia: Impactful Meaning for Sustainable Future

Running an exhibition "ProPak Asia" gives us lots of opportunities to improve our impacts environmentally, socially and economically in our region. We want to make our event more responsible and play a role in helping our markets improve its own sustainability through connecting people with the networks and knowledge they want to help solve the big challenges in our sector.

We do this not only because our partners & attendees tell us that they care that our events are run in a responsible manner, but because it is the right thing to do for our customers, colleagues, and the communities we serve.

ProPak Asia is considered a **sustainable event**, according to Thailand Sustainable Event Management Standard (TSEMS).

Inspiring Sustainable Development

Running an Environmentally Responsible Event

Running a Socially Responsible Event

As part of our commitment to reducing our event carbon impact, and our journey to Net Zero we are excited to announce that we have purchased **renewable electricity for over 90%** of our event.

Sustainability Partners: Connect the Communities

Company Name: Zhuhai QBCODE Technology Co., Ltd

Booth No.: FY261

Product Name: As a manufacturer of CIJ printers and laser printers, QBCODE Technology contributes to sustainability at Thailand's Propak exhibition by showcasing eco-friendly printing solutions. Through energy-efficient designs, recyclable materials, and promoting digitalization to reduce paper waste, QBCODE supports the exhibition's sustainability goals while providing innovative coding and marking technologies.
